

CREATIVE ART

Watercolor

Have fun painting in watercolor! Your painting background does not matter and the only prerequisite is a willingness to be open and experiment. Class covers color theory, techniques and perspective. Subject matter includes clouds, trees and basic landscapes. Plan to bring art supplies to the first class (supply list available upon request). Instructor: Joe Friddle is a retired high school teacher and professional artist whose works hang in many parts of Texas, the United States and internationally. (6 meetings)

Jan. 14 – Feb. 18

FRI

9-11 a.m.

Cost/\$25

Introduction to Stained Glass

Learn how to create beautiful works of stained glass! Learn the art of cutting and assembling glass pieces using the Tiffany Method, copper tape and solder to create stunning pieces. Class also covers safety, fitting, pattern design, manipulation and working with 3-D glass techniques for making boxes or lamps. Wear comfortable clothing and closed-toed shoes. Bring protective eyewear and plan to purchase supplies. A supply list can be provided, or students may purchase a beginner's kit from the instructor for \$50. Students will be expected to provide their own glass by the second class meeting. Instructor: Aly McMillan, who taught stained glass at California State Polytechnic University for three years, has been doing stained glass for more than six years. (5 meetings)

Jan. 26 – Feb. 23
