FOUNDED 1918

## Course Evaluation Guide for Central Texas College Course Offerings

September, 2007

## Articulation Agreement

---

This COURSE EVALUATION GUIDE is the direct result of an Articulation Agreement that formally recognizes that **Ashford University** and **Central Texas College** are active educational partners, committed to providing greater educational opportunities and services for students transferring between institutions. This commitment strongly supports the concept of seamless transfer that embraces the principle that transfer students should not be required to repeat competencies already achieved.

**Ashford University** and **Central Texas College** have entered into this ARTICULATION AGREEMENT in the spirit of cooperation and mutually recognize each other as quality institutions of higher learning. Each institution, furthermore, is dedicated to serving students from all walks of life, regardless of race, ethnicity, religion, sex, disability, color, age, marital status, national origin or other non-merit factors.

## Purpose

---

The purpose of the agreement is to enable **Central Texas College** students who transfer to **Ashford University** to carry with them the credit they have already earned for as much relevant study as possible. The ARTICULATION AGREEMENT provides a structure through which transfer articulation on all levels can be supported.

## Transfer Elements

---

### Central Texas College Associate Degrees

This ARTICULATION AGREEMENT establishes the principle that the following Associate Degrees by the **Central Texas College** transfer to **Ashford University** as a block:

*Please refer to attached spreadsheet illustrating which Associates Degrees transfer to which AU Bachelors Degrees in block.*

Completed blocks are treated as whole; the components are not examined separately to determine transferability. **Central Texas College** graduates will not have to repeat lower-division reqs. at **Ashford University** except where major coursework applies. All credits are accepted and applied toward the designated/appropriate university degree(s).

**Central Texas College** graduates with a minimum cumulative GPA of 2.0 entering under the terms of this agreement are guaranteed admission into the university. **Central Texas College** students transferring without an Associate Degree, will have all courses, numbered 100 and above and with a grade of C- or better, accepted for transfer as either an elective, general education requirement, or an exemption or replacement for a required course where applicable.

**Central Texas College** graduates will go through **Ashford University's** transfer process and therefore must meet all applicable reqs. and deadlines pertaining to application for admission, orientation and registration, and payment of tuition and fees. They will abide by the policies and procedures, along with any revisions thereof that apply to all students from that institution.

## Central Texas College General Education Curriculum (AGEC)

Completion of the **Central Texas College's** state approved General Education Curriculum will transfer as a block and will satisfy lower-division general education reqs. at **Ashford University**. This core can be transferred and accepted as a component of an Associate Degree or as a stand alone general education block not affiliated with an Associate Degree. In cases where a state approved block of general education curriculum does not exist, the community college's general education curriculum will be evaluated by **Ashford University** for applicability and accepted accordingly.

## Associate in Applied Science (AAS) Degree

The Associate in Applied Science (AAS) Degree represents the attainment of depth of technical competency in identified occupational arenas. However, some competencies in the area of general education may still need to be obtained. **Ashford University** will provide AAS transfer students with a flexible degree plan that will meet **Ashford University's** Baccalaureate Degree reqs..

## Award of Upper-Division Credit

Students who transfer lower-division credits beyond that required for an Associate Degree or whose lower-division credits/ are equivalent to designated upper-division credits can request/petition these courses be evaluated by **Ashford University** and, where appropriate, equivalent upper-division credit will be awarded. Students must have a minimum of 30 upper division credits to meet graduation reqs..

## 3+1 Program Offerings

**Ashford University** will accept up to 99 credits in transfer, 90 of which can be from community colleges. Consequently, 90 credits (3 full years) of community college credit can apply towards a bachelor's degree at AU. The residency requirement at **Ashford University** is 21 credits.

## Notes:

- A maximum # of 6 credits of Physical Education activity credits may apply towards a Bachelor's degree at Ashford University
- A maximum # of 6 credits of Computer application credits may apply towards a Bachelor's degree at Ashford University
- Courses that meet more than one General Education Requirement can only be applied to one area. A course cannot apply more than once.

This Course Evaluation Guide is unofficial and does not guarantee acceptance of transfer credits indicated. Official transfer credit evaluation takes place once a student is enrolled at Ashford University and all official transcripts and non-traditional credit documentation has been received.

<b>Ashford University Bachelor's Degree</b>	<b>CTC Degree(s) Accepted in Block Transfer Towards AU Bachelor's Degree</b>	<b>Credits in AU Major</b>	<b>Notes</b>
<b>College of Arts and Sciences Bachelor of Arts Degree Offerings</b>			
English/Communication	AA, AS	36-7	
Psychology	AA, AS	34	
Social and Criminal Justice	AA, AS	33	
Social Science	AA, AS	51	42 upper division credits required
<b>College of Arts and Sciences Bachelor of Science Degree Offerings</b>			
Computer Science and Mathematics	AA, AS	44	
Bachelor of Applied Science
