Europe Campus
2016-2017
The AAS degree helps prepare graduates for entry and mid-level positions within the criminal justice field, including law enforcement, corrections, probation, and parole. Courses are designed to provide knowledge of the history, concepts, and procedures followed in the criminal justice profession. As our society and our legal system evolve, so do requirements imposed on practitioners within the criminal justice profession. CTC helps prepare our students to adapt to those changes.
