

DSST Examinations with CTC Credit Recommendations

The nationally recognized DSST Program provides students with opportunities to receive college credits for learning acquired outside the traditional classroom. Credit is awarded based on the ACE recommended credit score and institutional guidelines. If there is a discrepancy in the scores on the CTC chart below and the minimum ACE recommended credit score on the official DSST transcript, credit will be awarded based on the ACE recommended score. The evaluation request and official DSST transcript must be received within seven years of the testing date. If a test is not listed, CTC does not award credit. Before taking a DSST exam for CTC credit, contact the CTC Evaluations Office for the most recent policies on the award of credit for DSST exams.

Scores below are for exams prior to the 2008 update. The minimum ACE recommended score for the 2008 updated exams is 400.

CTC Course	Sem Hrs	DSST Test	Minimum Score
Business and Computer Science			
ACCT 2301	3	Principles of Financial Accounting	49
BMGT 1301	3	Principles of Supervision	46/400
