

Accessing CHEM 1407 grades using Moodle
Spring 2010

Please read all of these instructions before proceeding to use Moodle.

1. Go to <http://moodle.ctcd.org/>
2. Click on “Central Texas College CampusNet”
3. If you have never used Moodle before, follow the directions under “Is this your first time here?” (If you HAVE used Moodle before, simply log in.)
4. Once you log in, you will need to choose the course. The course you want to select is “CHEM 1407 - Salvato.” This is located under “Science & Agriculture.”
5. You will need the enrollment key for the class. (This was distributed in class the first day.)
6. After logging in to Moodle, you will probably receive an automated email from your professor with the subject “Welcome to Chemistry.” The email will contain the following:

Welcome to Chemistry!

If you have not done so already, you should edit your profile page within the course so that we can learn more about you:

To Access Grades:

1. Log in to Moodle.
2. In the middle column under “My Courses,” click on “CHEM 1407 – Salvato.”
3. Click on “Grades” in the left-hand column. (Note: As soon as Mr. Salvato has an exam graded, he will post the scores on Moodle.)
