
EMSP 1149 Pre-Hospital Trauma Life Support 1-0-1 [Download Syllabus](#) - [Schedule Locations](#)

The course is designed to provide the practicing pre-hospital provider with specific knowledge related to the pre-hospital assessment and care of the trauma patient. Advances in pre-hospital trauma intervention techniques, along with new combinations and applications of existing skills and knowledge are included. Offered at Europe Campus only.

EMSP 1160 Clinical-Emergency Medical Technology/Technician 0-6-1 [Download Syllabus](#) - [Schedule Locations](#)

A basic, intermediate, or advanced type of health professions work-based instruction that helps students synthesize new knowledge, apply previous knowledge, or gain experience managing the workflow. Practical experience is simultaneously related to theory. Close and/or direct supervision is provided by the clinical professional (faculty or preceptor), generally in a clinical setting. Clinical education is an unpaid learning experience. Upon successful completion of this course and EMSP 1401, students are eligible to take the exam to be certified as an EMT-Basic. This course is only offered with EMSP 1401.

EMSP 1170 Rapid Patient Assessment 1-0-1 [Download Syllabus](#) - [Schedule Locations](#)

The course is designed to train medical care providers to determine the seriousness of a patient's condition in the first few minutes of a patient encounter. It focuses on the "Sick not Sick" method of assessment; a systematic initial assessment aimed at recognizing life-threatening conditions. The method is then applied to multiple scenarios.

EMSP 1271 Sports and Physical Training Injuries 2-0-2 [Download Syllabus](#) - [Schedule Locations](#)

The course is designed for the pre-hospital care provider emphasizing musculoskeletal injuries incurred during physical activity. The course is designed to build upon and extend the knowledge gained by pre-hospital care providers during an EMT-B certification course; or similar training.

EMSP 1272 EMT-B Refresher 2-0-2 [Download Syllabus](#) - [Schedule Locations](#)

The course is designed to refresh the Certified Emergency Medical Technician Basic with changes in trends; policies; and procedures. This course includes a review of basic knowledge and skills required to meet the National Registry of Emergency Medical Technician Basic Recertification. The course follows the Department of Transportation EMT-B Refresher curriculum.

EMSP 1273 Advanced Airway Management 2-0-2 [Download Syllabus](#) - [Schedule Locations](#)

The anatomy and physiology of the respiratory system; the use of airway adjuncts; oxygen therapy; and airway care are reviewed. Then anatomical considerations and the steps in the performance of endotracheal and esophageal intubation in the adult are considered. Endotracheal intubation in the infant is presented. The steps to be followed in assisting an EMT-P during intubation are presented.

EMSP 1305 Emergency Care Attendant 2-3-3 [Download Syllabus](#) - [Schedule Locations](#)

Basic first responder course in basic emergency medical care. Emphasis on requirements of national and state accrediting agencies.

EMSP 1401 Emergency Medical Technician-Basic 2-6-4 [Download Syllabus](#) - [Schedule Locations](#)

Introduction to the level of Emergency Medical Technician (EMT) - Basic. Includes all the skills necessary to provide emergency medical care at a basic life support level with an ambulance service or other specialized services. Upon successful completion of this course and EMSP 1160, students are eligible to take the exam to be certified as an EMT-Basic by the Texas Department of Health and/or National Registry of EMT. Prerequisite: Current CPR certification. See also admission requirements.
