Spring 2021
COURSE SCHEDULE

Personal Enrichment classes are short-term commitments that result in long-term gains.

Acquire knowledge, meet new people, and experience new ways to learn!
Take advantage of our Customized Training service.

Work with us to develop programs tailored to the content, schedule and location requirements of your business. From customer service to bookkeeping and leadership, we can help you increase employee productivity and improve customer satisfaction.

CALL US TODAY! (254) 526-1586

Workforce education and training programs are designed to meet the special needs of individuals and businesses. Opportunities are available for those individuals who wish to learn a new skill or enhance their existing talents. Whether you want to develop better technical, planning, communication, customer service, leadership or supervisory skills, you'll find courses planned with you in mind.
The new year is upon us and we have a New Year's resolution for you! Learn something new every day. Whether you are looking for a new career, professional development or an epicurean adventure, we have the class for you! We are always eager to showcase our new classes along with many past favorites.

We realize the current unpredictable COVID-19 outbreak may have an impact on our spring offerings and it is possible some or all of our face-to-face classes may have to be postponed or cancelled. However, we are prepared to offer you flexible opportunities to learn online, in the classroom and in a blended format. If and when we must make a decision to cancel classes, any registrations will be fully refundable. We have a number of courses available online for both career advancement and personal enrichment if you feel more comfortable with an online format for now.

We have given lengthy and careful consideration to how we can ensure an exceptional education with an opportunity to complete hands-on skills that adheres to guidance from public health experts. For training that requires face-to-face interaction, measures will be in place for instructors and students while in the classroom in accordance with the CDC recommended guidelines. All students and instructors are expected to fully comply with CTC policies, protocols and guidelines related to COVID-19 procedures and complete required training and forms. To find information about returning to campus, see our website at https://www.ctcd.edu/covid-19-return-to-campus/

Thank you for allowing Continuing Education to be your choice for training and lifelong learning. You can still contact us by phone to register, or to ask questions, at 254-526-1586 or by email at continue.education@ctcd.edu

Sincerely,

Teresa Chavez
Associate Dean, Continuing Education and Adult Education

BMGT 1021 Project Management Certificate
Enter the workforce with competitive project management skills or strengthen your business expertise and professional resume with a project management certificate! Project management is one of the most rapidly growing professions in America and certified project management skills are now required by many companies. Become the highly effective member any company would want on their project management team in this 40-hour accelerated certificate course by learning methods for planning and controlling projects. Course includes project management concepts and models, critical path, analysis of time/cost benefits and resource utilization. Upon completion, you will be able to define project management compared to general management, describe the phases of the project life cycle, define the roles of the project manager and the project team, define deliverables and stakeholders and identify project management resources. Four practice tests and a resource page will be given out during class. There will be a one-hour lunch break on Fridays; lunch is not provided. (10 or 5 meetings) (4 CEUs, 40 PDUs)

BMGT 2030 PMP® Exam Boot Camp
PMP-certified project managers earn an average of 20 percent more than their uncertified counterparts. Therefore, the PMP certification is a must-have for any serious project manager. To earn your PMP® credential, you must meet the experience and education requirements plus pass the 200-question, multiple-choice PMP® examination. Regardless of how advanced your project management experience or education might be, you should still prepare vigorously for the exam. In this class, you will review test-relevant material which includes change management, processes, environmental effects and time and cost estimations. You will complete practice exercises, receive a four-hour take home exam that can be taken multiple times and receive a valuable resource page. (9 meetings) (3.6 CEUs, 36 PDUs)

| MAR 22-APR 19 | M/W | 6-10 PM |
| MAY 20-JUN 17 | T/TH | 6-10 PM |

COST/$859
*Course will be available live-online if campus closures continue through fall 2020.

Certification: Both courses provide the education hours needed to qualify for the PMI®, CAPM® and PMP® exams offered through Project Management Institute. This exam can be taken at the CTC Testing Center. The certification exam is not included in the price of this course.

Textbooks required for Project Management Certificate and PMP® Exam Boot Camp

Instructors: Albert Hernandez is a retired Army, PMI-certified PMP with more than 20 years of experience in project management. Erasmus Quaye is a veteran, civil engineering professional and PMI-certified PMP with six years of PMP experience and five years of teaching experience.

TESTIMONIALS

During the summer of 2020, I attended two live-online courses offered by Central Texas College - Introduction to Project Management Professional and Project Management Professional Exam Boot Camp with instructor Albert Hernandez. These courses gave me the fundamental building blocks needed to further my career as a project manager and to obtain my PMP certification. The live-online course enables you to attend the class from the comfort of your own home with engaged and knowledgeable instructors.

- Aaron M. Adkins, PMP

LEAN SIX SIGMA

Lean Six Sigma Green Belt
In this accelerated, fact-to-face course, you will learn to define, measure, analyze, improve and control your business processes using Lean Six Sigma methodology. In additional to Levels of Cognition based on Bloom’s Taxonomy, you will learn time-tested processes and techniques that can tremendously improve the performance of your business or organization regardless of its focus. This course is appropriate for most products and services provided by businesses and organizations and it will significantly increase your personal value to your business or organization. Certification: For those who are planning to take an IASSC™ Lean Six Sigma certification exam, this course provides the educational preparation needed to be successful. The certification exam is not included in the price of this course. Instructor: Brad Garrett worked as a certified Six Sigma Green Belt for both Northrop Grumman and Raytheon from 2006-2018 and has successfully used Six Sigma concepts as a program manager, quality assurance manager, lead instructor and lead auditor. (5 meetings) (4 CEUs, 40 PDUs)

**COST/$1,695**

**SMALL BUSINESS**

**NEW! Certified Manager (CM) Program - Online**
The Certified Manager (CM) certification is a professional credentialing program that verifies an individual’s ability to manage and potential to lead with a level of competency. CM certification is attained by meeting eligibility requirements for education and experience and passing a series of three CM assessment exams. Program applicants should have prior work experience but may or may not hold a management title. Employers look to the CM certification to distinguish candidates for hiring and career advancement. Enjoy the flexibility of studying individually anytime and anywhere with this self-directed, online certification prep. Enrollment is continuous, allowing applicants to apply online and get started right away. The proctored CM exams can be scheduled whenever the applicant is ready to test, allowing individual control over the pace of completion. Additionally, the exams can be taken on any computer with reliable internet access, eliminating the need to travel to a testing center. A new class begins the first and 15th of each month.

**SPRING START DATES: JAN 1 & 15, FEB 1 & 15, MARCH 1 & 15, APR 1 & 15, MAY 1 & 15.  **
**COST/$2,700**

**Human Resources Professional Exam Prep - Live-Online**
This HR management course weaves together solid human resource principles, timely research and recent events such as the latest rise in unemployment and financial problems facing the U.S. and other countries. This course highlights important challenges facing managers and employees in today’s business climate. Interesting case studies explore real companies and organizations in-depth and delve into some of today’s most effective, unique approaches in dealing with HR issues. In addition, this course provides study materials to help prepare for the PHR ® exam. The PHR ® Exam Study Guide will be utilized throughout the course to supplement the Human Resource Management textbook and provide review materials for exam prep. Certification: Upon completion of this course, students will have the skills necessary to serve as human resource managers as well as the preparation needed to sit for the HR Certification Institute ® (HRCI ®) PHR ® (or SPHR ®) certification exam. Tuition includes book(s) and materials. ProTrain, 36 hours, instructor-led.

**MAY 10-AUG 2  **MON **6-9 PM CST**
**COST/$1,199**

**BMGT 1024 Internal Auditing and the Quality Manager IAW ISO 9001:2015**
Learn how to improve the effectiveness of your business by learning how to be an internal auditor and/or a quality manager under International Organization for Standardization (ISO) 9001:2015. Learn from an instructor with years of experience as both an internal auditor and a quality manager who is certified to teach lead auditors by Lloyd’s Register out of London - one of the industry leaders in this arena. You will learn how ISO and the Plan/Do/Check/Act (PDCA) cycle work together as well as how to plan for, execute and report an audit. Once that is complete, you will learn what is involved with analyzing your audit results to improve your company’s effectiveness. This course also teaches you what is required of a quality manager and how to put together an effective audit program. Brad Garrett (See Lean Six Sigma). (2 meetings) (.7 CEUs)

**ONLINE**

Soft Skills Suite
Achieving Success with Difficult People
Do you know people whose behavior makes completing even the simplest tasks difficult? Would you like to learn how to have more successful relationships with difficult bosses, coworkers, students, neighbors or family members? Join this class and get helpful information for understanding yourself, solving people problems and improving your relationships and personal and professional productivity.

Interpersonal Communication
Communicating successfully depends on effective use of communication strategies and behaviors. Words, facial and body movements, tone of voice, even clothing and situation, all form an intricate symbol system that must be quickly translated by those who want to communicate. This course shows you how to manage the conscious and unconscious codes of meaning we send to each other and to respond with appropriate codes in turn. Communicating is necessary. Knowing how to do it well is personally satisfying and professionally wise.

Skills for Making Great Decisions
Learn how to make excellent everyday decisions from an experienced counselor and life coach. You’ll discover the steps necessary to achieve your goals, as well as the power ordinary, everyday decisions can have over the quality of your life. You’ll develop some important guidelines for when to take risks, when to trust your luck and what to do if you make a mistake. The goal of this course is to give you the power to live
the best life you can and make the very most of every opportunity.

**Individual Excellence**

Develop career-enhancing skills in a single course that covers 12 popular one-day seminar topics including goal setting, time management and personal organization. You’ll learn how to improve your creative abilities, gain confidence with financial matters and how to minimize conflict in your life. Develop a fulfilling career plan and improve relationships with co-workers, friends and family.

**ED2GO CAREER, 96-HOUR, INSTRUCTOR-LED COURSE.**

**START DATES:** JAN 15, FEB 12, MAR 18, APR 15, MAY 13

**COST/$395**

---

**Get ahead in life by earning your GED or improving your English language skills. Contact Adult Education at 254-526-1120 or go to www.ctcd.edu/ael for more information or to apply for enrollment.**

---

**Online Private Training**

Use our Professional Development Training Series to improve your organization’s performance. These programs can be customized to meet your training objectives and needs. Focus areas include:

**The Financial Aspects of Business Planning**

Help your small business flourish! Learn how to integrate strategic and financial plans to formulate a comprehensive road map for the progression of your business. Understanding how financial resources, financial goals and financial performance of a business align with its strategy creates a sustainable, competitive advantage that maximizes the company’s value.

**Profit Strategies for Business**

Profit enables a business to accomplish its mission, including noble causes. If your business is not pursuing a profit, it is either a hobby, stagnate or a money pit. Profit is critical to the success and growth of a healthy business. It is also your reward for all the hard work you put into your business. Join us to hear how to stop the leaks and maximize profits!

For more information, contact the Continuing Education department at 254-526-1586.

**QuickBooks Online Automating your Business Processes and Online Marketing: Reaching Customers Everywhere**

Grow your business by taking control of your bookkeeping. Learn best practices for bookkeeping work flow processes, using QuickBooks Online Platform to automate work flow processes and integrating apps and creating an online ecosystem. We will set up your profile, review accounts receivable and accounts payable work flows and talk about how to reconcile your accounts. The lecture-style course includes follow-along demonstrations and practice providing hands-on experiences with the QuickBooks Online software. A training/reference book is included in the price of the course. Harold Keeter has a BA in accounting, more than 10 years of professional work experience in the accounting field and owns a successful online bookkeeping and tax preparation business.

For more information, contact the Continuing Education Department at 254-526-1586.

---

**GAMIFICATION**

**Distance Gamification**

Distance Gamification is a self-paced, online course designed for anyone hoping to better engage and/or educate an internet audience. Participants learn how to implement gamified training strategies by “playing” their way through resilience-boosting quests that include free films, readings and online learning games. Although the quests are self-paced, there will be periodic deadlines to ensure opportunities for asynchronous discussion, collaboration and feedback. This course looks beyond typical gamification gimmicks like leaderboards, points and badges to the motivation strategies employed by game design experts. Upon completion, students will have created a universally engaging game-like quest for a topic of their choice. Students will have asynchronous opportunities to participate, collaborate and give/receive feedback. Instructor: Jeremy Royster is a transformative curriculum author with extensive experience intrinsically motivating students through personalized instruction. As an adjunct instructional technology professor, he has proven expertise amplifying engagement through his online gamified classroom. Certified in technology education (PK-12) and education technology leadership, Royster also creates live-action escape rooms for his middle school students.

**CHOOSE YOUR START DATE!**

**COST/$149**

**NEW! Fast-Track to GamED**

Fast-Track to GamED is the fast-track version of Distance Gamification, without the certificate. When applied correctly, Game-based learning and gamification techniques inspire learners to persevere through repeated failures to achieve long-term goals. All of our lessons, or “quests,” in this course model the very strategies you will learn to employ in your learning environment. Experience the benefits of GamED learning firsthand as you learn how to apply the strategies to your instruction. By the end of Fast-Track to GamED you will have created a GamED quest for a topic of your choice ready to launch.

**Included:** One-year access to our database of teacher-created game-quizzes, subject-specific quests, and curated resources. **Instructor:** Jeremy Royster is a transformative curriculum author with extensive experience intrinsically motivating students through personalized instruction. As an adjunct instructional technology professor, he has proven expertise amplifying engagement through his online gamified classroom. Certified in technology education (PK-12) and education technology leadership, Royster also creates live-action escape rooms for his middle school students.
author with extensive experience intrinsically motivating students through personalized instruction. As an adjunct instructional technology professor he has proven expertise amplifying engagement through his online gamified classroom. Certified in Technology Education (PK-12) and Education Technology Leadership (CETL), Jeremy also creates live-action escape rooms for his middle school students.

**COST/$119**

**NEW!** The Fun in Failure
Nine Self-paced Learning Modules The Fun in Failure is a resilience reinforcement system employing games to train participants how to reframe mistakes as learning opportunities. Jane McGonigal, author of SuperBetter, explains purposeful play “really does help you become less depressed, better connected and more resilient in real life.” (Slate, 2015) All games position players fail repeatedly in order to learn how to win. The lessons, or “quests,” in The Fun in Failure have been designed like games to help you master the teachings of grit gurus like McGonigal. Upon class completion, you will have unlimited access to the learning modules and all of your work. Are you ready to turn your failures into fun? Course includes the database of teacher-created game-based personalized instruction rich with opportunities for mastery, a sense of purpose, and autonomy. Experience the benefits of personalized learning first-hand as you learn how to apply the strategies to your instruction. By the end of the course you will have created a personalized quest for a topic of your choice ready to launch.

Included: One-year access to our database of teacher-created game-based quizzes, subject-specific quests, and curated resources. Instructor Jeremy Royster (See Distance Gamification).

**COMPUTER TECHNOLOGY AND DESIGN**

**CompTIA A+ with Exam Voucher**
CompTIA A+ exam is a globally recognized industry standard for establishing an IT career. CompTIA A+ Core Series 220-1001 exam and 220-1002 exam cover expanded content on growing IT support role including expanded baseline security topics. The certification provides a different approach to define competency in operational procedures including basic disaster prevention, recovery and scripting basics and a greater dependency on networking and device connectivity.

**Recommended prerequisites:** High School graduate or GED holder, operating knowledge of Windows or equivalent operating system. Tuition includes book(s) and materials. Protrain, 56 hours (40 hours live-online/16 hours online), instructor-led.

**Certification:** Upon completion of this in-classroom course, students will be prepared to take the CompTIA A+ 1001 and 1002 certification exams. Tuition includes exam voucher.

**LIVE-ONLINE SCHEDULE**
**JAN 19-MAR 2**  T/TH  6-9 PM CST  **COST/$1,489**

**CompTIA Network+ with Exam Voucher**
The CompTIA Network+ training measures the necessary competencies for an IT professional with approximately nine months experience in network support or administration. Students will learn the knowledge and skills needed to install, manage and troubleshoot a variety of networks on any platform. **Recommended prerequisites:** high school graduate or GED holder, operating knowledge of Windows or equivalent operating system. Tuition includes book(s), materials and exam voucher. Protrain, 48 hours (30 hours live-online/18 hours online), instructor-led.

**Certification:** Upon completion of this in-classroom course, students will be prepared to take the CompTIA Network+ certification exam.

**LIVE-ONLINE SCHEDULE**
**MAR 9-APR 8**  M/W  6-9 PM CST  **COST/$1,345**

CAREER DEVELOPMENT

AWS Academy Cloud Foundations

Academy Cloud Foundations is intended for students who seek an overall understanding of cloud computing concepts, independent of specific technical roles. It provides a detailed overview of cloud concepts, AWS core services, security, architecture, pricing and support. Test new skills and apply knowledge to your working environment through a variety of practical exercises. Textbook Required. Prerequisites: Cloud Computing Architecture requires a strong foundation in IT concepts and skills. You must be at least 17 years old. (10 meetings) (2 CEUs)

Certification: This course prepares students to pursue an AWS certified cloud practitioner certification.

LIVE-ONLINE SCHEDULE
MAR 30-APR 29     T/TH           6-8 PM
COST: $199

ITNW 1007 Safe Surfing... the Internet

Learn to browse the internet safely! There are as many ways to compromise your information as there are stars in the sky. Viruses and malware spread with ease and speed through simple actions like clicking on links found on web pages or in emails. An infected computer can run slowly, bombard you with pop-ups, download programs without your permission or allow your sensitive personal information to be accessed. After this course, you will understand the basics of what to click, what to NOT click and how to differentiate ads from content. You will also learn how to configure your web browser so it works for you! Lessons include lectures and hands-on practice. (4 meetings)

APR 9-20       FRI           NOON-2 PM
COST/$29

CompTIA Security+ with Exam Voucher

This course prepares for the Security+ certification exam which covers industry-wide topics including communication security, infrastructure security, cryptography, access control, authentication, external attack and operational and organization security. Security+ is taught at colleges, universities and commercial training centers around the globe. Many corporations recommend or require the Security+ certification for their IT employees. Companies like Sun, IBM/ Tivoli Software Group, Symantec, Motorola and Olympus Security Group know the value of a Security+ certification and recommend or require it of their IT employees.

Recommended prerequisites: high school graduate or GED holder, operating knowledge of Windows or equivalent operating system. Tuition includes book(s) and materials. Protrain, 48 hours (30 hours live-online/18 hours online), instructor-led.

Certification: Upon completion of this in-classroom course, students will be prepared to take the CompTIA Security+ certification exam. Tuition includes exam voucher.

LIVE-ONLINE SCHEDULE
APR 15-MAY 18     T/TH       6-9 PM CST
COST/$1,379

Cloud Computing Architecture

Cloud Computing Architecture is an AWS Academy curriculum designed to help students develop technical expertise in cloud computing. The curriculum is delivered through instructor-led classes, hands-on labs and project work. You will have access to course manuals, online knowledge assessments, labs and a free practice certification exam. You must be at least 17 years old. Prerequisites: Cloud Computing Architecture requires a strong foundation in IT concepts and skills. Certification: This course prepares you for the AWS-certified Solutions Architect - Associate certification exam and includes a discount voucher for the certification exam. (15 meetings)

LIVE-ONLINE SCHEDULE
MAY 4-JUN 22     T/TH       6-8 PM CST
COST/$399

Certified Ethical Hacker

Exam voucher included!

Are you interested in network security and information technology but, perhaps, want more of a challenge than typical IT provides? If so, ethical hacking certification is a unique way to set yourself apart from other IT professionals and add even more value to your organization. As a certified ethical hacker, you’ll use the same techniques as the bad guys to assess security and identify weaknesses, except you’ll use these hacking powers for good. To put it one way, “To beat a hacker, you need to think like a hacker.” This course will immerse you into the hacker mindset, putting you in the driver’s seat of hands-on activities. You will scan, test, hack and secure your own systems. You will learn the five phases of ethical hacking (reconnaissance, gaining access, enumeration, maintaining access and covering your tracks) and the ways to approach your target and succeed at breaking in every time. This accredited course provides you with advanced hacking tools and techniques so you can assess the security posture of an organization with the same approach these malicious hackers use. You’ll be able to identify weaknesses and fix the problems before they are identified by the enemy, preventing what could...
CAREER DEVELOPMENT

Professional Truck Driving

Just 210 hours of training can get you into a high-paying career. Truck drivers are in big demand around the country. Close to 100 percent of our students get their Class A license and move right into the driver’s seat after completing our four-week job training. Employment assistance is available. The class includes 40 hours of classroom and 170 hours of practical and behind-the-wheel training. Financing is available through ATDS. The program is also eligible for MyCAA, DARS training, WIOA training and Veterans Benefits.

*Initial screening is done at the ATDS office or by calling 254-432-7534.

ITSC 1022 Make Your Computer Work for You

Whether you are using a computer for work, school or leisure, this class will help you transform a blank page into a professional-looking document. In Office Suite, discover different menu options and their functions, including how to use tables efficiently, formatting skills, drawing and inserting objects, the use of columns and charts, illustrations, themes and different text options. Maximize your potential with an introduction to email and calendaring software as a desktop information management tool. You will learn to create and manage messages, contacts, tasks and notes and schedule appointments. Explore internet navigation including email, homepage and how to perform basic research to address company/business needs. You will learn to identify basic internet concepts and terminology, use electronic communication and collect and evaluate research data using the internet. At the end of the course, you will be able to identify the components of a computer system, demonstrate basic operating system functions and install and use common applications. This course includes lecture, demonstration and hands-on practice. (4 meetings) (.8 CEUs)

We are expecting Southern Association of Colleges and Schools Commission on Colleges’ (SACSCOC) approval for the Licensed Massage Therapy (LMT) program to move under CTC’s Department of Health Sciences (DHS). This will allow us to start our next cohort with the spring 2021 semester.

Students have to be enrolled in Central Texas College, meet with an Academic Advisor, take the reading and writing sections of the Texas Success Initiative and have their financing determined.

Students can then complete their application packets for the LMT program. Packets will be available under Department of Health Sciences (Bldg. 155, second floor) and online.

SACSCOC approval will make the program a certificate of completion for college credit. Once we receive SACSCOC approval, we can request the program be approved by the VA so students can use their VA educational benefits, and by Department of Education so students can use the Free Application for Federal Financial Aid (FAFSA) process to pay for the program.

You may contact the LMT program director via email at viola.crowder-moger@ctcd.edu or call 254-501-3011 and leave a voicemail with your name, phone number and a brief message.

Massage therapy is a licensed healthcare profession regulated by the Texas Department of Licensing and Regulation (TDLR). Students complete the program of study, internship and clinicals prior to graduation. The program prepares the graduate to sit for the State of Texas licensing examination through the Federation of State Massage Therapy Boards’ Massage and Bodywork Licensing Exam (MBLEx). Once graduates meet all the state requirements, they may apply for their state license. A passing score on the MBLEx is good towards licensure in 46 states. Classes must be taken as a cohort in the order in which they are offered. This program requires additional steps to register. Call 254-526-1890/1266 for more information.

All COVID-19 rules apply.
CAREER DEVELOPMENT

ethics, terminology, body systems, calculations, purchasing, inventory, communication and professionalism in the workplace, study skills and more. Payment options are available. MDCA 1010 Medical Assistant Interpersonal and Communication Skills
Class focuses on the application of basic psychological principles and the study of behavior as they apply to special populations. Topics include procedures for self-understanding and social adaptability in interpersonal communication with patients and coworkers in an ambulatory care setting. (Clock Hours/48, CEUs 4.8)

MDCA 1009 Anatomy and Physiology for Medical Assistants
Course focuses on structure and function of human cells, tissues, organs and systems with overview of common pathophysiology. (Clock Hours/58, CEUs 5.8)

MDCA 1052 Medical Assistant Laboratory Procedures
Students will learn about application of governmental health care guidelines including specimen collection and handling, quality assurance and quality control in performance of Clinical Laboratory Improvement Amendments (CLIA)-waived laboratory testing. (Clock Hours/64, CEUs 6.4)

MDCA 1017 Procedures in a Clinical Setting
Instruction emphasizes patient assessment, examination and treatment as directed by a physician. Skills include vital signs, collection and documentation of patient information, asepsis, office clinical procedures and other treatments as appropriate for ambulatory care settings. (Clock Hours/90, CEUs 9)

MDCA 1060 Advanced Medical Assistant Technician
Course focuses on the theory and application of administration and clinical skills. (Clock Hours/80, CEUs 8)

MDCA 1021 Administrative Certification Bootcamp For Clinical Medical Assistants
As a certified administrative medical assistant, the student will be trained to perform administrative work using specific knowledge of medical terminology and hospital, clinic or laboratory procedures. Enjoy a rewarding career in healthcare where your responsibilities may include medical office procedures including appointment scheduling, medical records creation and maintenance, interpersonal communications, bookkeeping tasks, coding, billing, collecting, third-party reimbursement, credit arrangements and computer use in the medical office. Graduates will be qualified to take the optional Certified Medical Administrative Assistant (CMAA) exam offered by the National Healthcareer Association (NHA). This exam is proctored on the CTC campus. (Clock Hours/55, CEUs 5.5) (11 meetings)

Certified Veterinary Assistant
Pets are part of our families. If you love animals, there are few jobs more rewarding than a veterinary assistant. As a certified veterinary assistant (CVA), you will acquire the knowledge necessary to support the veterinarian and veterinary technician in their daily tasks while learning basic and intermediate skills. This program requires additional steps to register. To learn more about this exciting career field and additional class requirements, contact the Continuing Education Department at 254-526-1586 or visit us at www.ctcd.edu/ce.

CVA Basic Course
VTHT 1012 Veterinary Animal Care, Husbandry, and Sanitation
Gain an understanding of basic patient observation, record keeping, care and comfort, animal husbandry, sanitation, safety procedures and the roles and responsibilities of the veterinary team. Describe safety, cleaning and disinfection procedures, bathing/dipping of patients, food and diet preparation, medical record entry, medicating techniques and disease prevention. In addition to 35 hours of classroom instruction, you are required to complete 35 volunteer hours outside of class. The program costs $399 plus the cost of textbooks and course supplies. (12 meetings) (3.5 CEUs)

JAN 25-MAR 8 M/W 9 AM-NOON
MAR 30-MAY 6 T/TH 6-9 PM
COST/$399

CVA Intermediate Program
In this program, you will acquire the knowledge necessary to support the veterinarian and veterinary technician in their daily tasks while learning intermediate skills. Learn about identifying slides, skin scrapings and tape prep for mites, venipuncture, blood tubes and placing
CAREER DEVELOPMENT

CONTINUING EDUCATION SPRING 2021 COURSE SCHEDULE

VTHT 1005 Veterinary Medical Terminology
Introduction to word parts, directional terminology and analysis of veterinary terms. (Clock Hours/32, CEUs 3.2)

VTHT 1011 Veterinary Clinical Skills
Survey of basic veterinary and nursing care skills. It includes aseptic techniques, operating room procedures and the roles and responsibilities of the veterinary team in a clinical setting. Describe common clinical procedures, read and fill prescriptions, outline surgical patient preparation procedures and explain aseptic technique and disinfection, medicating techniques, laboratory procedures, radiology and operating room protocol. (Clock hours/40, CEUs 4)

VTHT 1017 Veterinary Office Management
Practical experience in management of the veterinary practice. Emphasis is on client relations, record keeping, inventory, employment skills and computer skills in the veterinary environment. Employ client and veterinary team communication, apply basic business principles such as the maintenance of medical records and computer skills and demonstrate employment skills including interviewing, resume writing and appropriate interview attire. (Clock Hours/48, CEUs 4.8)

Certification: The Certified Veterinary Assistant (CVA) program consists of two courses:
1) CVA Basic Course
2) CVA Intermediate Program

You must take both programs to apply for the certification exam through Texas Veterinary Medical Association (TVMA). TVMA offers a simple cost-effective option for certification. The TVMA Veterinary Assistant Training program is standardized and documents the basic skills and competencies required for animal care and assistance. The TVMA certification exam fees are $135 and the cost of the exam is not included in tuition. In order to receive CVA Level I certification, certain standard requirements must be met and can be found on the TVMA website. Students must complete the CVA Basic Course, CVA Intermediate program and turn in a log of 310 additional clinical hours to take the TVMA certification exam on the CTC campus.

NEW! EKG Technician
Start a successful and meaningful career that will help make a difference in countless lives! EKG rhythms provide important data for the diagnosis of heart conditions. By administering EKGs (testing the electrical activity of the heart through small electrode patches attached to the body) you will make a life-changing difference by helping people of all ages prevent and treat heart disease. These tests can be performed during physical exams, when cardiovascular problems are suspected, or in preparation for surgery. The need for qualified EKG technicians continues to rise as the aging population in America grows (and with it, the prevalence of heart-related conditions). This program costs $649 plus the cost of textbooks and course supplies. Certification: Graduates will be qualified to take the optional EKG Technician (CET) exam offered by the National Healthcareer Association (NHA). This exam is proctored on the CTC campus. (15 meetings) (CEUs 6)

ECDR 1011 Electrocardiography
Learn fundamentals of cardiovascular anatomy and physiology. Course includes basic electrocardiography procedures, interpretation of basic dysrhythmias and appropriate treatment modalities.

PROGRAM LECTURE SCHEDULE
JAN 19-MAR 9 T/TH 5-9 PM
MAR 29-MAY 17 M/W 5-9 PM
COST/$649

*Course lectures will be available live-online. Students will complete lecture hours online and small group, hands-on lab training on campus.

NEW! Certificate in Infectious Diseases and Infection Control
Infectious diseases are a key concern for any healthcare professional. Globally, infectious diseases are responsible for more than 25 percent of all deaths, second only to cardiovascular disease. Millions more individuals are affected by the most common types of infectious diseases which can have both short- and long-term health consequences. This online course offers insights into infectious diseases essential for medical professionals. By the end of this course, you’ll have a solid understanding of the most common infectious diseases as well as a grasp of the procedures that can help contain them. Ed2go Fundamentals, 13 hours, six weeks access, live-online, instructor-led or self-paced.

START DATES: JAN 13, FEB 10, MAR 17, APR 14, MAY 12
COST/$78

FIRST AID AND SAFETY

CPR for Healthcare Providers
At this time, the American Heart Association (AHA) has not approved virtual Basic Life Saver (BLS) courses. AHA has given us direction on how to hold a BLS class while still adhering to social distancing guidelines. Classes will have no more than six students plus the instructor. Students need to be six feet apart. Students will wash hands and use gloves when touching mannequins and everyone must bring and wear their own mask. Masks will not be provided.

FOCUS ON YOU

Beyond the Scope

Beyond the Scope means that something is out of range. Challenge your everyday thinking and take a look at yourself Beyond the Scope! Be empowered to achieve goals, maximize your passions and gifts while learning about self-care, empowerment, getting through obstacles that are faced every day, academic success, development of talents, and fostering habits that cause a positive outcome. The class will also discuss the importance of how to recognize and cope with domestic violence, PTSD, depression, anxiety, and bullying. Mental stimulation through positive reinforcement will be introduced to inspire you to reach your goals through step-by-step concepts of writing down a plan and following that strategy through. Students must have basic computer skills and be familiar with Microsoft Word. Bring paper and a pencil to class. Schantel Thomas is an experienced speaker on domestic violence awareness and an advocate for victims who suffer from depression, anxiety, PTSD, and bullying. (4 meetings)

JAN 19-FEB 9 TUE NOON-1:30 PM
COST/$79
*Course will be face-to-face with social distancing or available Live-Online if campus closures continue through spring 2021.

Love to Write: Memoirs and Self-Help

Join us for four weeks of storytelling as we learn how to bring your story to life. Have you ever thought about writing a memoir or self-help book? This course will help guide you through your story and make you industry standard-ready whether you plan to self-publish or submit your manuscript to a publisher. Supplies are included in the class cost. Erin Hughley (see Moms Who Write: Children’s Books). (4 meetings)

JAN 20-FEB 10 WED NOON-1:30 PM
COST/$69
*Course will be face-to-face with social distancing or available live-online if campus closures continue through spring 2021.

Love to Write: Fiction and Romance

If you enjoy a good fiction or romance read in your spare time, this class is for you! In the Love Who Write: Fiction and Romance, we create our own steamy stories. This class is for those who love reading and writing romantic suspense, romantic comedy, contemporary romance or urban romance. We’ll spend four weeks of learning the ins-and-outs of an enjoyable novel and applying it as we work in groups creating our own short stories or novellas. Supplies are included in the class cost. Erin Hughley (see Love Who Write: Children’s Books). (4 meetings)

JAN 21-FEB 11 THU 12-1:30 PM
COST/$79
*Course will be face-to-face with social distancing or available live-online if campus closures continue through spring 2021.

READING & WRITING

Love to Write: Children’s Books

Everyone has a story to tell! Love to Write: Children’s Books is for people of all writing levels who enjoy storytelling and dream of creating a story to publish, whether it is about a particular subject or your own child. Join us for four weeks of fun and writing as we create our children’s books together.

Students who publish will be able to participate in our biannual community book signing events! Supplies are included in the class cost. Erin Hughley is a published author of more than 12 titles, an editor, a children’s book publisher and a writing consultant/instructor. (4 meetings)

**OUTDOOR RECREATION**

**TESTIMONIALS**

Geocaching:
What were the best features of this class?

“All of it – can’t pick just one thing. Truly enjoyed learning about geocaching and excited to get out to find caches!”

“Good mix of classroom and outside time – lots of detailed information.”

Geocaching

X marks the spot! Geocaching is a real-world, outdoor treasure hunting game using GPS-enabled devices. It is a brilliant way to socially distance and still have fun! Participants navigate to a specific set of GPS coordinates and then attempt to find the geocache (container) hidden at that location. Class will start in the classroom to go over the lingo of the trade, criteria for caches and the rules for placing and finding them. Then, show you how to log the ones you find. Then venture outside to find a few caches. Participants should wear comfortable, close-toed, walking shoes and bring a GPS device (phone or GPS unit). Children are welcome but must register with a parent. Janice Veteran is an avid geocacher who has logged more than 14,000 finds, more than 200 hides, and was previously the Texas Geocaching Association. (1 meeting)

MAR 6 SAT 9 AM-1 PM
COST/$35
*Course will be face-to-face with social distancing.

**GET PHYSICAL**

Zumba®

Zumba® combines high-energy and motivating music with unique moves and combinations that allow participants to dance away their worries and get in shape. It is based on the principle a workout should be fun and easy to do. With a fusion of Latin and international tunes, Zumba® combines the fundamentals of interval and resistance training to maximize caloric output, fat burning and total body toning. Bring a water bottle and towel to each class. Sheeda Murphy is a licensed Zumba® and Strong Nation™ instructor. (4 meetings)

APR 27-MAY 18 TUE 6-6:30 PM
COST/$19
*Course will be face-to-face with social distancing or available live-online if campus closures continue through spring 2021.

Hoop Dance

Discover infinite movement through hoops! Hooping is a low-impact, full-body, aerobic exercise. Students will learn the fundamentals of hoop dance using a hula hoop through expressive movement and creative dance. With regular practice, hooping can build strength and flexibility, improve memory and focus and promote balance. Course includes on- and off-body hooping, and hoop transitions. Wear comfortable clothing that allows for free movement (no slippery fabrics such as silk). No prior experience or hula hooping skills are necessary. Selena James is a certified Hoop Love coach and hoop dancer of six years. (4 meetings)

MAR 24-APR 14 WED 6-7 PM
APR 28-MAY 19 WED 6-7 PM
COST/$35
*Course will be face-to-face with social distancing.

**WATER FITNESS**

**TESTIMONIALS**

Water Aerobics with Judy: What were the best features of this class?

“It’s good for my health and bones!”

“The people! The instructor is the greatest!”

“Great exercise and fun.”

**Water Aerobics with Judy (Age 50+)**

Water aerobics is a fun workout with easy-to-follow exercise routines to improve cardiovascular conditioning. Using the resistance of the water, this class is a total body workout including aerobics, toning, and stretching. It can also improve your strength and flexibility leading to better muscular endurance and balance. Bring a towel and wear swimsuits and aqua socks (shoes for water). Registration is limited to one session with a January start date and one session with a March start date. Social distancing guidelines will be in place. Judy Mills is a certified water aerobics instructor. (6 meetings)

PERSONAL ENRICHMENT

GETTING STARTED WITH ZOOM

1. Create Your Account (optional)
   - Go to https://zoom.us/signup to create your free Zoom account. If you choose not to create an account, you’ll need to type in a display name each time you join a meeting.

2. Download Zoom (optional)
   - Desktop/laptop computer: Go to https://zoom.us/download and click the blue “Download” button underneath the Zoom Client for Meetings heading.
   - iPhone/iPad: Download the Zoom app from the Apple App Store.
   - Android Phone/Tablet: Download the Zoom app from the Google Play Store.
   If you prefer not to download Zoom onto your computer or device, you can still join meetings using your internet browser. When you click on the link for a Zoom meeting, look for and select the “join from your browser” option.

3. Try It Out
   - Guide for New Users: Visit https://support.zoom.us to read Zoom’s quick start guide for new users.
   - Join a Test Meeting: Practice your Zoom skills before you join an actual meeting. Go to https://zoom.us/test.
   - Attend a Zoom Training: Zoom’s experts host free and interactive live training webinars daily. Get up to speed in less than an hour. Visit support.zoom.us to register for a live training or watch a recording of a previous training.
   - Top 20 Zoom Resources: View the most commonly accessed resources on Zoom’s website at support.zoom.us.

LIVE-ONLINE VIA ZOOM

NEW! Get A Jumpstart on 2021
A new year lends itself to newness in other areas too. Happy newness! May you flourish and grow in all areas of life. Students will be given a Zoom link upon registering. Please make sure to download and set up a Zoom account before the class start time at www.zoom.us. Mona Dunkin is certified in reality therapy, choice theory and lead management, mental health and youth counseling and faith-based counseling. (1 meeting)

Goal Setting that Brings Results
One of the greatest causes of failure is the inability to see the complete picture. Develop a step-by-step system for success, learn the principles of goal setting and obtain evaluation tools to keep you on track for ultimate results.

JAN 6 WED 8-9 AM
COST/$9
*Course will be live-online via Zoom.

Using Time Effectively
Everyone has 24 hours a day. How we use them is up to us. Learn to be effective and efficient so you can add useful hours to your day. Go from crises living to productivity and peace. Find freedom and flexibility in a well-tuned schedule.

JAN 13 WED 8-9 AM
COST/$9
*Course will be live-online via Zoom.

The Blessings of Organization
Receive helpful insights to get rid of perfection, high expectations and big disappointments. See ways to resign from clutter and revive simplicity.

JAN 20 WED 8-9 AM

Mistakes Winners Do Not Make
Learn the secrets of winners – what they do and don’t do. Be surprised how easy it is to adapt their methods.

JAN 27 WED 8-9 AM
COST/$9
*Course will be live-online via Zoom.

What is Love
Psychiatrist William Glasser suggests love and belonging is a basic genetic need of every living creature. Since all eight-plus billion of us others are on this Planet-Earth Spaceship together, we might as well get along. Learn how a little understanding and compassion can go a long way. Students will be given a Zoom link upon registering. Please make sure to download and set up a Zoom account before the class start time at www.zoom.us. Mona Dunkin (see Get A Jumpstart on 2021). (1 meeting)

Being a Sweetheart All Year Long
It is great to have holidays that remind us of what is truly important – love. Only it is not just a one-day event. Neither is it for only one or only a select few. The need to love and be loved is universal. Let’s discuss it.

FEB 10 WED 8-9 AM
COST/$9
*Course will be live-online via Zoom.

Thinking and Feelings
Everything is created twice, first in the mind and then in reality. Thoughts become things; only sometimes feelings rush or thwart the process. Receive key thoughts on being in effective control of your emotions.

FEB 17 WED 8-9 AM
COST/$9
*Course will be live-online via Zoom.

Becoming Assertive
 Assertiveness is the ability to express your thoughts and feelings in a socially acceptable manner. Easy to learn, empowering and makes for effective personal interactions. Learn awareness, self-evaluation and develop internal disciplines to assert yourself for a more successful and fulfilling life.

FEB 24 WED 8-9 AM
COST/$9
*Course will be live-online via Zoom.
Wine 101
Join us virtually the last Friday of each month for a journey to learn about wine. The goal of each class is the same: to simplify the process of learning about and tasting wine. "Zoom" in for a Friday night happy hour full of unpretentious, fun learning. A list of wines will be suggested for the tastings if you wish to join along, or you can join in with your own glass and expand your repertoire. We will begin with introductions, then dive in to how wine is made, wine types, wine regions/styles, tasting/demonstrations and tips on tasting and buying. A course book is included. Students will be given a Zoom link upon registering. Please make sure to download and set up a Zoom account before the class start time at www.zoom.us. Michelle Stone is a wine and spirit education trust-certified candidate who has hosted food and wine events during the last five years.

Ed2Go Courses for Teachers
Helping children thrive is your greatest goal as a teacher. Whether you’re caring for youngsters in your own family or volunteering in your community, you’ll want to contribute to their well-being, education and future success. We help you turn your personal goals into reality. With your on-the-go lifestyle, flexible online classes for child development are a practical gateway to bettering yourself as a teacher. With our online child development courses, your inspiration will meet professional training. Classes are six weeks long and you can choose between instructor-led or self-paced.

Working Successfully with Learning Disabled Students
This course teaches you how to meet the diverse needs of students with disabilities in your classroom. With lessons developed by an experienced special educator, you will explore the special education process, from working with individualized education programs (IEPs) to helping students struggling with reading comprehension, math skills and writing. In this course, you will discover easy, practical and creative strategies to help your struggling students find their light bulb moments. Register at ed2go.com/ce. Instructor-led or self-paced.

START DATES: JAN 13, FEB 10, MAR 17, APR 14
COST/$125

Teaching Students With ADHD
In this course, you will discover practical ways to help children with ADHD control their behavior and succeed in school. You will learn from the real experts: the children themselves. You will find out how Kristi controls her behavior and how Wanda handles boredom. You will see how Adam jump starts his thought processes, how Harry satisfies his need to move without bothering his teacher and how Darren aces his homework. In addition, you will hear from parents and teachers about the amazing benefits of simple adaptations in space, structure, rules and expectations. You will also explore some myths and facts about ADHD and see how this condition affects motivation, activity level, attention and memory. By the time you’re done, you will have the skills and knowledge needed to help students with ADHD achieve their full potential. Register at ed2go.com/ce. Instructor-led or self-paced.

START DATES: JAN 13, FEB 10, MAR 17, APR 14
COST/$125

Integrating Technology in the Classroom
In this teacher professional development course, you will learn the secrets of technology integration in the classroom and gain the skills educators need to use tools such as wikis, podcasts and blogs effectively. You will discover simple ways to integrate technology to enhance your subject material and meet your common core standards and other course goals. You will learn how to design presentations for auditory, visual and kinesthetic learning styles, how to teach keyboarding and word processing, how to develop standards-
personnel and change the way you teach. Whether you're new to the integration process or already use technology in the classroom, learning about emerging educational technologies is vital to your students' success. By the time you finish this online teacher training course, you will know how to integrate technology across the curriculum. Register at ed2go.com/ce. Instructor-led or self-paced.

START DATES: JAN 13, FEB 10, MAR 17, APR 14
COST/$125

Creating a Classroom Website

In this fun, easy-to-understand course for teachers, you will learn how to build a site with text, images, animations, tables, links and more. Then you will create a WebQuest and a blog to add to your site. You'll also discover how students can use site builders to create their own websites in minutes. You will be amazed by how simple creating a classroom website can be and all the ways in which having one can make you a more effective and dynamic teacher. By the end of this course, you'll have your own published classroom website and you'll feel energized by your great new teaching tool. Register at ed2go.com/ce. Instructor-led or self-paced.

START DATES: JAN 13, FEB 10, MAR 17, APR 14
COST/$125

Creating Classroom Centers

In this course, you will learn how to create and implement center activities that boost independent learning in the classroom. You will start out learning what a center is, what benefits it offers and how to make the most of it. Next, you will explore some very common mistakes teachers make with centers and gain tips for keeping your planning time to a minimum. You will receive step-by-step instructions for creating a center schedule that students at every reading level can use independently. Short on classroom space? You will get great ideas for storing your center and explore some alternatives to having a permanent spot for every center. You will master an easy, effective process for introducing centers and their materials to your students and develop strategies for what to do when things don’t go quite as planned. The insights you will gain will show you how to adjust your centers routine for both your fastest learners and those who need more time. Register at ed2go.com/ce. Instructor-led or self-paced.

START DATES: JAN 13, FEB 10, MAR 17, APR 14
COST/$125

The Creative Classroom

Creativity will abound in your classroom as you tap your students’ hidden talents. Learn how to use creativity to teach reading, writing, visual arts, performing arts, social studies, science, mathematics and physical and health education. Develop creative new approaches to field trips, learning labs, activities, exercises, assignments and evaluation methods. Think beyond the textbook and challenge your students by making your classroom a creative classroom. Register at ed2go.com/ce. Instructor-led or self-paced.

WHAT ABOUT PARKING?
Parking permits are not required for non-reserved spaces. Anyone parking in a reserved parking or official use only space will receive a parking ticket.

WHAT IF A CLASS IS FULL?
You may register for a class any time prior to the first meeting. However, due to limited class size, it’s a good idea to sign up early. If the class you want to take is full, ask to be placed on a waiting list. Then, if an opening occurs, we will call you.

WHERE’S MY TEACHER?
Teachers rarely miss a class, but if a class is unexpectedly canceled, we make every effort to call you. However, since cancellations often happen on short notice, we post a sign at your class to notify you. The class will then be rescheduled.

HOW DO I PAY FOR MY CLASS?
Payment options are listed at the top of the inside back pages. Payment is always due at registration. Our office no longer accepts cash. Credit cards, money orders, cashier’s checks or cash are accepted for payment at the Business Office in Building 119. For your convenience, you can pay for your classes online in our office or on your computer using WebAdvisor.

WHEN CAN I REGISTER?
You may register for a class as soon as the course schedule is available. We highly recommend you register and pay for a class a minimum of three business days before the class starts.

REFUND POLICY
Receive a refund or withdraw from a course, students must contact the Continuing Education office in person. Refunds and withdrawals will follow the official CTC schedule, which can be found on the CTC website, at http://www.ctcd.edu/academics/catalog/catalog-texas/college-costs/. For additional questions regarding this policy, contact the Continuing Education department. Emergency withdrawal will be considered filed as of the date of the emergency orders or medical certification of family members. Any exceptions to this policy will require approval of the appropriate dean and bursar.

WHAT ARE CEUs?
CEUs are nationally recognized to record satisfactory completion of certain approved occupationally-related programs. One CEU is awarded for each 10 contact hours of instruction included in a specified continuing education program or activity. Successful completion is attendance-based unless otherwise noted. 90 percent attendance is required for successful completion of most classes. Some classes require 100 percent attendance.

WHAT IS THE DIFFERENCE BETWEEN ONLINE AND LIVE-ONLINE?
Online (asynchronous) courses are delivered asynchronously where students learn on their own schedule (self-paced learning) without a real-time instructor. Students can enroll in the course at any time, as long as the course is active and available. Live-online (synchronous) courses are in a live virtual meeting room where students and teachers meet together to communicate with voice, video and whiteboard. Live-online classes require students and instructors to be online and connected to the internet at the same time.

QUESTIONS?
Call Continuing Education at 254-526-1586 or email continue.education@ctcd.edu. We are located on the main CTC campus in Building 136, Room 139. Our hours are 7:30 a.m.-5:30 p.m., Monday through Thursday, and 7:30 – 11:30 a.m. on Friday.

CAN YOU TEACH?
We are always looking for instructors who can develop and teach noncredit courses in a variety of areas including foreign language, creative arts, personal skills, painting, drawing, music, career development, outdoor activities, exercise, dance, sign language, craft classes, floral design, College for Kids classes, food and entertainment, travel, culture and writing. For more information about our programs, to discuss a class idea or to request a course proposal package, please contact our office. Although we have made every effort to ensure the accuracy of information in this brochure, we cannot always control errors or omissions. CTC reserves the right to cancel, combine or divide classes, to change the time, day or place or to change instructors without notification without incurring obligation.
WHAT'S INSIDE?

Empowering your employees
Customized Training programs can strengthen company performance and bottom-line results. see inside cover

Internal Auditing and the Quality Manager IAW ISO 9001:2015
Learn what is required of a Quality Manager and how to put together an effective Audit Program. See pg. 8

Overview of Business Continuity
BCM Planning Methodology includes IT Recovery, Business Continuity, Supply Chain, and Crisis strategies. Within each methodology, there are plans that need to be created and managed that will cover incidents, emergencies, events, and disasters. Learn how to create a comprehensive Business Recovery Plan. See pg. 9

Expand your own capabilities
Lean Six Sigma Green Belt
In this accelerated, fact-to-face course you will learn to define, measure, analyze, improve and control your business. Learn time-tested processes and techniques that can tremendously improve the performance of your business or organization regardless of its focus. see pg. 7

Certified Manager (CM) Program - Online
This program verifies an individual's ability to manage and potential to lead with a level of competency. Employers look to the CM certification to distinguish candidates for hiring and career advancement. see pg. 8

WE NEED YOU!
Share your expertise and passion with self-motivated adult learners and children! We are currently looking for dynamic instructors who can develop and teach noncredit courses for Personal Enrichment and/or College for Kids for summer 2021. To submit a course proposal, visit www.ctcd.edu/ce.
