

Simulation Center/Laboratory Confidentiality Agreement & Release Form

In consideration of the educational opportunity to obtain practical experience in a simulated patient environment, I understand the significance of confidentiality with respect to information concerning the simulation scenarios, the simulated patients, and fellow students. I understand that active participation in the simulation scenarios is part of the course requirements. In addition, I understand that the simulation scenarios are videotaped and used for debriefing purposes and shared only with appropriate faculty.

I agree to adhere to the following conditions and guidelines:

- The simulation mannequins are to be treated with respect and handled with care as if they were live patients.
- As the simulation mannequins are to be treated as live patients, I will uphold the requirements of the Health Insurance Portability and Accountability Act (HIPAA) and any other Federal or State Laws regarding confidentiality. I agree to report any violations of confidentiality that I become aware of to my facilitator or instructor.
- All patient information, including but not limited to diagnosis, interventions, laboratory values, medications, and vital signs, used in the simulation scenario is privileged and confidential regardless of format: electronic, written, overheard or observed. As such, any viewing, discussion, or disclosure of this patient information to another student is a violation whether intentional or unintentional and may lead to disciplinary action as outlined in the student handbook.
- Patient information may be viewed, used, disclosed, and discussed with other students participating in the simulation scenarios only as it relates to the performance of my educational duties in the simulation scenario, or per the instructors directions. Any viewing, discussion, or disclosure of this information outside of the simulation environment is a violation of HIPAA and other State and Federal Laws.
- The simulation laboratory is a learning environment. All students are expected to demonstrate behaviors that maintain this respectful and supportive learning environment. The students participating in the scenario should have everyone's respect and attention. All scenarios should be treated in a professional manner.
- No Betadine and no ink pens will be used near the mannequins. In addition, 20g IV catheters or smaller will be used for IV starts.
- The undersigned authorizes and consents to the use of the undersigned's name, voice, photograph, video recording, and likeness by the Central Texas College Department of Health Sciences Programs without reservation or limitation and with the understanding that the undersigned will not receive compensation.
- **I hereby grant Central Texas College the absolute rights and permission, with respect to the photographs, audio and recorded images (to include, but not limited to digital, videotaped or other types of image recording) ("Images") taken of me or in which I may be included with others, to use such Images for educational purposes and training only. This authorization and release shall apply to the person(s) for whom the Images were taken for educational purposes only.**

_____ (initials)

- **I have read and understand the Simulation Lab Policy, and have been provided a copy.**
