

CTC Credit Recommendations Advanced Placement Examinations

Advanced Placement (AP) examinations provide a means to demonstrate college-level accomplishments. Although high school students often take the AP examination after completing an AP course at their high school, the AP examinations can be taken by home schooled students or other students whose high school does not offer AP courses. CTC requires that students earn a 3, 4, or 5 on the AP examination and meet all other institutional requirements to be eligible to receive college credit. The evaluation request and official AP score must be received with 10 years of the testing date. Official transcripts must be sent directly from the College Board to CTC.
