

CTC Credit Recommendations
Automotive Service Excellence (ASE) Examinations

The following chart lists courses that students may receive credit for based on presentation of a current certification, recertification, or letter from ASE stating that they have passed the certification test(s) in the applicable ASE test series. ASE certified technicians must retest every five years to maintain certification. Therefore, the evaluation request and proof of passing the ASE certification exam must be received within five (5) years from the test date. If a test is not listed, CTC does not award credit.
