

Veterinary Assistant Training Program

Program Summary: Pets are part of our families, and if you love animals, there are few jobs more rewarding than a veterinary assistant. The Certified Veterinary Assistant (CVA) program consists of two courses:

- 1) CVA Basic Course, 35 lecture hours and 35 volunteer hours
- 2) CVA Intermediate Program, 120 lecture hours

By taking these courses, you will acquire the knowledge necessary to support the Veterinarian and Veterinary Technician in their daily tasks while learning basic and intermediate skills.

Course Fee:

- CVA Basic Course \$399 includes consumable supplies and course completion certificate.
- CVA Intermediate Program: \$1299 includes consumable supplies and course completion certificate.

Veterinary Assistant Costs beyond Tuition

- Set of scrubs (Navy Blue)
- One pair of closed-toed, closed-heeled shoes
- Stethoscope
- Watch with second hand

Community Job Survey: Average pay is \$11 per hour. Pet owners are becoming more affluent and more willing to pay for advanced veterinary care because many of them consider their pet to be part of the family. This growing affluence and view of pets will continue to increase the demand for veterinary care and cause the field to grow faster than average through 2026.

Certificate of Completion: Upon successful completion of the course will receive a certificate of completion within 2-3 weeks after class ends. See page 2 for complete CVA certification information.

Program Requirements: Students must be 18 years of age at the time of enrollment. Students need to be proficient in keyboarding, have a basic understanding of a word processing computer program (Microsoft Word recommended, but optional) and have a command of English grammar and punctuation. Students will be required to have access to the Internet, printing capabilities and an email address. Application packets must include:

- High School diploma/transcript or G.E.D or Official transcripts of higher education.

*Incomplete packets will not be accepted.

VTHT 1012 Basic Veterinary Assistant Summary: Pets are part of our families, and if you love animals, there are few jobs more rewarding than that of veterinary assistant. You will acquire the knowledge necessary to support the Veterinarian and Veterinary Technician in their daily tasks while learning basic skills. Learn about basic patient observation, record keeping, care and comfort, animal husbandry, sanitation, safety procedures and the roles and responsibilities of the veterinary team. At the end of this course, you will be able to describe safety, cleaning and disinfection procedures, bathing/ dipping of patients, food and diet preparation, medical record entry, medicating techniques, and disease prevention. In addition to 35 hours of classroom instruction you are required to complete 35 volunteer hours outside of class. One hour is set aside for lunch on your own. (7 meetings) (3.5 CEUs)

Course Fee: \$399 includes consumable supplies and course completion certificate.

Goals and Purpose: Upon successful completion of course and volunteer experience, the student will receive a certificate of completion within 2-3 weeks from Central Texas College. This course is designed to prepare the student for an Intermediate Veterinary Assistant course.

Conditions for Repetition: If the student does not receive a 75% or higher in the course and complete 35-hours of volunteer experience he or she will not receive a Certificate of Completion. The student may repeat the class at their own expense. The volunteer experience log (showing 35 hours completed) must be turned in no later than 10 business days after class ends.

Outcomes and Objectives:

After successful completion of this course the student will be able to:

1. Display skill and confidence in interacting with animals and their owners.
2. Utilize veterinary medical terminology in speech and documentation.
3. Assist with veterinary exam procedures.
4. Assist with veterinary lab procedures.
5. Assist with veterinary medical imaging.
6. Perform kennel, cage, and stall maintenance.
7. Perform common and exotic animal restraint.
8. Assist with veterinary animal nursing
9. Assist with veterinary pharmacy and pharmacology.
10. Perform administrative duties necessary to the smooth operation of a veterinary office, such as scheduling appointments, handling billing and collections, and effective communication.
11. Discuss legal, ethical and professional standards.
12. Preparing for Employment

Intermediate Veterinary Assistant Summary: In this program, you will acquire the knowledge necessary to support the Veterinarian and Veterinary Technician in their daily tasks while learning intermediate skills. Learn about identifying slides, skin scrapings, and tape prep for mites, vena puncture, blood tubes and placing catheters. The program will educate veterinary assistants in the essential skills and knowledge needed to become effective contributors to the veterinary medical care team. Other topics include general veterinary assistant, veterinary medical imaging, surgical preparation and assistance, and veterinary pharmacy and pharmacology. One hour is set aside for lunch on your own. Classes must be taken as a cohort in the order in which they are offered. VTHT 1012 is a prerequisite to this program. TVMA Certification exam fees are not included in tuition. (24 meetings) This program consists of 120 hours of accelerated classroom training with emphasis on skills mastery through hands-on practice. (Total 120 Hours) (12 CEUs)

VTHT 1005 Veterinary Medical Terminology: Introduction to word parts, directional terminology, and analysis of veterinary terms. (Clock Hours/32, CEUs 3.2)

VTHT 1011 Veterinary Clinical Skills: Survey of basic veterinary and nursing care skills. Includes aseptic techniques and operating room procedures, and the roles and responsibilities of the veterinary team in a clinical setting. Describe common clinical procedures; read and fill prescriptions; outline surgical patient preparation procedures; and explain aseptic technique and disinfection, medicating techniques, laboratory procedures, radiology, and operating room protocol. (Clock Hours/40, CEUs 4)

VTHT 1017 Veterinary Office Management: Practical experience in management of the veterinary practice. Emphasis on client relations, record keeping, inventory, employment skills, and computer skills in the veterinary environment. Employ client and veterinary team communication; apply basic business principles such as the maintenance of medical records and computer skills; and demonstrate employment skills including interviewing, resume writing, and appropriate interview attire. (Clock Hours/48, CEUs 4.8)

Requirements: Students must have completed the Basic Veterinary Assistant course

Course Fee: \$1299 includes consumable supplies and course completion certificate.

Goals and Purpose: Upon successful completion of course and volunteer experience, the student will receive a certificate of completion within 2-3 weeks from Central Texas College. This course is designed to prepare the student for the TVMA Certified Veterinary Assistant Level I certification exam.

Conditions for Repetition: If the student does not receive a 75% or higher on the course. The student may repeat the class at their own expense.

Outcomes and Objectives:

After successful completion of this course the student will be able to:

1. Provide general veterinary assistance.
2. Perform veterinary exam procedures.
3. Perform veterinary lab procedures.
4. Understand veterinary medical imaging.
5. Perform kennel, cage, stall area care and maintenance.
6. Perform restraint on common and exotic animals.
7. Perform surgical preparation and assistance.
8. Assist with veterinary animal nursing.
9. Assist with veterinary pharmacy and pharmacology.
10. Perform practice and client relations.

Instructional Strategies:

- Lecture
- Large/Small Group Discussion
- Individualized Study
- Multimedia
- Role Play
- Small Group Projects
- Skills Demonstration
- Independent Research
- Competency Check-off
- Practice under supervision
- Workbook/Homework Assignments
- Hands on practice under supervision

Methods of Evaluation:

- Quizzes
- Workbook Assignments
- Competency Check-off
- Final Exam
- Volunteer Experience Exam

Textbook Ordering Information:

Certified Veterinary Assistant Level I Training Manual, Published and distributed by Texas

Veterinary Medical Association. Textbooks are available for purchase at CTC Bookstore.

Textbooks can be purchased on the www.tvma.org website for \$189.95 (plus shipping) for TVMA non-members and \$159.95 (plus shipping) for TVMA members. You may also contact Larisa Respondek via email at lrespondek@tvma.org for ordering assistance.

CVA Training & Certification Program:

Texas Veterinary Medical Association (TVMA) offers a simple cost effective option for certification. The TVMA Veterinary Assistant Training Program is standardized and documents the basic skills and competencies required for animal care and assistance. The program will educate veterinary assistants in the essential skills and knowledge needed to become effective contributors to the veterinary medical care team. The best thing about this program is it can be completed either in a clinic or a TVMA approved educational program.

In order to receive CVA Level I certification, certain standard requirements must be met. These include:

- 500 hours of work experience under the supervision of a DVM or LVT
- Mastering all required Level I material
- Gaining and demonstrating the hands-on skills listed on the Skills Validation Checklist
- Exam Application and Skills Validation Checklist completed and approved by the DVM or LVT
- Successful completion of the certification examination (70%)

To be certified under the TVMA program, the applicant must successfully demonstrate 100% of the required skills and competencies. Some of the required skills may not be regularly practiced in the clinic where the applicant has gained experience. However, it is the applicant's responsibility to develop all skills listed. For example, if the required skill states that the applicant has demonstrated the safe and proper method for placing a halter on a horse, and the clinic where the applicant works does not treat horses, the DVM or LVT who is validating this skill may make this determination by having the applicant describe how this process works and the steps one would take when performing this procedure. Once the supervisor is satisfied that the applicant understands how to perform the skill correctly, they may check the skill off the checklist, even though the actual horse was not available for demonstration.

Certification Exam:

Upon supervised completion, the Exam Application, Skills Validation Checklist, and payment must be sent to the TVMA office for processing. The certification exam will then be sent to the supervising DVM or LVT, and must be administered within a one-week period. The completed exam and answer sheet must then be returned to TVMA for processing, after which the results will be mailed back to the clinic. Any applicant who passes the exam will receive a congratulatory letter, certificate and patch. We hope the newly designated CVA will display the certificate in a prominent place and will take considerable pride in their new designation. In the unfortunate event of an applicant failing the exam, the applicant will be eligible to re-take the exam as many times as needed and at a discounted price.

The profession of veterinary medicine is ever changing and new knowledge and treatment procedures are developed continuously. Veterinarians must remain current in their license and education and the same is true for Veterinary Assistants. In order to maintain CVA status, the CVA must renew their certification annually. A renewal fee of \$0 is due by the renewal month that is indicated on the CVA certificate along with 5 hours of CE.

Program Fees

TVMA has made every effort to develop the CVA program as a cost effective service to our members and other veterinarians in Texas. We have priced each component of the program at the lowest possible cost consistent with a high-quality educational and certification program. These costs are outlined below:

- Level I Training Manual, \$159.95 members/ \$189.95 non-members

The educational materials for CVA Level I are available for purchase from the Texas Veterinary Medical Association. You may order these materials by phone 512/ 610-6652 or emailing lrespondek@tvma.org. While purchase of these materials is not mandatory to sit for the exam, TVMA believes it is a very beneficial tool for any veterinary assistant committed to the field.

- Level 1 Certification Fees: Fees: \$135
- Level 1 Re-Test Fees:
\$45
- Annual Renewal Fees:
\$30
